10 metres of Westflex W-103 coax cable with N-type connectors fitted.

## Description

10 metres of prepared Westflex W-103 50? coax cable - a 10mm diameter low loss coax cable fitted with high quality N-type connectors each end. Both connectors sealed with glue-lined heat shrink to reduce likelihood of water ingress. All cables fully tested prior to shipping.

**We can prepare cables for you with any combinations of connectors each end, PL259 with SO239, N-type male to N-type Female etc, etc. Email us with your requirement.**
