20 metres of Westflex W-103 coax cable with PL259 connectors fitted.

Description

20 metres of prepared Westflex W-103 50 Ω coax cable - a 10mm diameter low loss coax cable fitted with high quality PL 259 connectors each end. Both connectors sealed with glue-lined heat shrink to reduce likelihood of water ingress. All cables fully tested prior to shipping.

We can prepare cables for you with any combinations of connectors each end, PL259 with SO239, N-type male to N-type Female etc, etc. Email us with your requirement.
